

Vairo Di Pasquale

+1 (305) 337-8760 | vairo.dp@gmail.com | linkedin.com/in/vairo-di-pasquale | github.com/vairodip | vairodip.com

AI/ML Engineer, Founder, and Artificial Intelligence master's graduate.
"40% of my first name is already 'AI', isn't it enough?"

EXPERIENCE

Co-Founder & Head of AI

December 2024 – Present

AndromedAI

Milan, Italy

- AI Agents for making your catalog pages sell more. Clients include **Armani**, **Invicta**, and **Pellizzari**.
- Raised **\$1.3M** in funding round in Italy which is impressive by itself.

Founding Lead AI/ML Software Engineer

August 2023 – Present

Scalestack

Miami, FL

- Building and deploying AI agents and multi-agent systems at scale, now powering workflows for customers like **MongoDB**, **Harvey**, **Astronomer**, **Redis**, **Remote**, and **Typeform** among others.
- Architected and implemented from the ground up the AI/MLOps pipelines that became the foundation of Scalestack's product, pivotal in the **\$6.3M** funding success.
- Engineered, customized, and deployed AI agents utilizing both open and closed-source LLMs.

AI/ML Developer

February 2023 – April 2025

Contractor

EU/US

- Delivered ML tools and led AI initiatives for clients including **Octopus Energy**, **Rocket Resume**, **XRI**, and **WritePal**.
- Expert in computer vision and large language models, applying tailored solutions for digital transformation.
- Fostered effective collaborations between stakeholders and tech teams, enhancing project efficiency.

Machine Learning Software Engineer

January 2023 – August 2023

Polar Frequency

Remote

- Responsible for developing and maintaining Machine Learning, Deep Learning, and Natural Language Processing microservices in my AI team.

EDUCATION

Master's degree - Artificial Intelligence

Bologna, Italy

Alma Mater Studiorum

- Research in Machine Learning, Deep Learning, Natural Language Processing, and Computer Vision.
- **GPA: 4.0 (top 5%)**. Awarded partial fee refund due to honors.

Exchange Student - Artificial Intelligence

Sundsvall, Sweden

Mid Sweden University

- Main research topics: Natural Language Processing, Data Mining.
- Continuous exposure to ex-pats leading to the successful completion of a **C2 English** exam.

Bachelor's degree - Computer Science

Bologna, Italy

Alma Mater Studiorum

- Coursework: Algorithms and Data Structures, Software Engineering, Operating Systems, Mobile App Development, Language Theory, Computability, and Complexity.
- The result has supported the work that has culminated with a **peer-reviewed paper** presented at FACS 2021.

AWARDS

Forbes 30 Under 30

May 2026

Forbes

Italy

- Recognized among Italy's most influential innovators under 30 for impact in Artificial Intelligence.

O-1A Visa: Individuals with Extraordinary Ability in Science

March 2025

U.S. Citizenship and Immigration Services (USCIS)

USA

- Awarded for demonstrated extraordinary ability and sustained national/international acclaim in the field of Artificial Intelligence and Machine Learning.

1st Place Google DSC Europe 2022

February 2022

Google DSC

Europe

PUBLICATIONS

Corinne, a Tool for Choreography Automata

October 2021

FACS 2021: Formal Aspects of Component

Springer, Cham

- Developed a major extension of *Corinne*, a Python tool for reading, composing and projection of the Choreography Automata.
- Presented at a peer-reviewed conference hosted by FACS. 18+ citations on Google Scholar.

CONTRIBUTIONS & EXTRACURRICULAR ACTIVITIES

Contributions in Open Source

May 2022 – Present

*Active contributor to **LangChain**, **LiteLLM**, and **OpenAI's Gym**, **Minigrid**, and **Progen**.*

AI Mentor for Ideathon & GDSC Europe collaborator

September 2022 – July 2023

Selected for mentoring in AI/ML for the Ideathon and GDSC Europe events.

Europe

Core Member of a Google Developer Student Club

September 2021 – 2023

Managing and organizing events in a GDSC with 200+ students.

Bologna, Italy

Summer School, Artificial Intelligence

June 2021 for 2 weeks

Robotics, Computer Vision, AI for Medical Applications.

Nankai University, China

More Certifications

November 2021 – December 2021

“Advanced Deep Learning with Keras” & “Data Scientist with Python” on DataCamp.

TECHNICAL SKILLS

Fields of Interest: AI Agents, Deep Agents, Deep Learning, Machine Learning, Natural Language Processing, Reinforcement Learning.

Libraries: Pi-mono, SciPy (NumPy, Pandas, ...), SciKits (scikit-learn, scikit-image), Tensorflow, Keras, PyTorch, OpenAI Gym, Matplotlib, OpenCV, LangChain, LLamaIndex.

Technologies: Python, Linux, MacOS, Windows, Git, Node.

Human Languages: English (C2), Italian (Native), Spanish (Currently Learning).
